The moon turns off; the sun will never shine  
The star are remains and is quiet the land  
In the mirror of the time I couldnt see your reflex  
I only see my despair, my own desperate  
The end of your life has marked me as a fire  
You condemned me to life against my own desire  
Wherever you are I always be by your side  
Better than this I only know the die

Dreaming in the past time when you're all  
I can't believe the end of your life  
Since you not are I used to cry  
Every night, the end of your life

Only I can know how strong is the pain  
Only you from the other side how much I love you

Now see in this endemic fire  
How destiny has broken our biblic paradise  
Becoming in a bleak desert of silence  
With no point of reference for me

Unforgiving remains saying what couldnt be  
Whispers the moon, you are not for me  
I can't believe this cruel reality  
I can 't believe why you arent for me

Believe in my promise, Ill be on your side  
Eternally with you

Feeling the wind I use to cry I cant believe  
That destiny decide to me this bleak remembrance  
Each night I cry alone as you  
The end of your life

How sad is my existence without you  
I forget wheres my path  
Your remembrance corrode me  
I don't need to be alive  
Can you remember all my promise?  
Can you remember that

Our souls will be eternal  
Our souls will become in one
