Now, i'm here alone, wandering across the lands where  
everything ends  
I walking alone looking for my lover, looking for you  
It hovers on me the night of the times  
The shortest way to meet you under my feet has  
begun,  
The white light is blinding me but let me get closer to  
you  
Against the light i can't see clearly  
The white light is blinding me  
The same light dazzles my heart  
Beyond the light i'm sure that you're there  
It hovers on me the night of the times  
The shortest way to meet you again  
This white light. against the light i can't see clearly  
This white light. beyond the light i'm sure that you are  
Gloomy place full of light. souls are dancing and  
laughing around me  
Gloomy place empty of life. they are whispering me  
that i  
wasted my life  
In this gloomy garden i'm searching what i've loved  
most  
In this gloomy garden i have lost all  
Is just a dream  
Is just an illusion  
A broken dream  
A foolish illusion
