"Iris Didn't Spell"

Visit "[Iris Didn't Spell](#)" on MotoLyrics.com

Iris didn't spell.
Secret things she wouldn't tell.
What's important?
What desire?
Come inside here by the fire.

Darkness falls the stars explode
But they don't die
They just can't be together.

Round and round we're spinning in the grass
Got your little hands singing
The little church bells ringing.

Darkness falls the stars explode
But they don't die
They just can't be together.

Isaura looks up to the sky
And sees the birds fly overhead

In perfect time and perfect shape.
She steps upon a green landscape.

Darkness falls the stars explode
But they don't die
They just can't be together.

The stars are curving 'round
Lighting up your pretty eye.
Lay on the ground face up to the sky.
Never closer you and I
Creatures say it without sound.

Darkness falls the stars explode
But they don't die
They just can't be together.
