If that's not love than what is?  
If that's not friendship than what is?  
If that's not music than what is?

We've got the music in our blood  
Magical seasons and than were all done  
Magical feelin has begun  
Magical feelin has begun

Before you know it we are there  
On top of the world it seems  
I don't know who, why, or where  
But I can still hear the music  
If that's not love than what is?  
If that's not friendship than what is?  
If that not music than what is?

We've got the music in our blood  
Magical seasons and than were all done  
Magical feelin has begun  
Magical feelin has begun

Before you know it we are there  
On top of the world it seems  
I don't know who, why, or where  
But I can still hear the music  
If that's not love than what is?  
If that's not friendship than what is?  
If that's not music than what is?  
If that's not music than what is?  
If that's not music than what is?  
If that's not music than what is?  
If that's not music than what is?  
If that's not music than what is?  
If that's not music than what is?  
If that's not love than what is?  
If that's not friendship than what is?  
If that's not music than what is?

We've got the music in our blood  
Magical seasons and than were all done

Magical feelin has begun
