I here your voice when no one's around
I'm sitting here when I'm losing ground
Feels like the earth move under my feet
I feel you and every single heartbeat
You are a lovely lovely refrain
You spinning round and round in my brain
I sing this tone until it's in unfurled
You got the sweetest as in the world

As in the world
As in the world
As in the world
As in the world
As in the world
