Every time I go to the lab and just make  
Hits yall know how we do it yo profly lets do this

Oh ooh ooh oh ooooh oh oh ooooh (do you wanna to  
ride with us tell me do you  
Wanna ride with us) all I want

All I want all I need is to show  
You all I got just you and me oh baby do you  
See I got a feel for you and what you mean to me ?  
I wont lie to you baby,baby got it going on  
I can't let go

Lately you've been acting kind of strange lately  
I've been wondering if things have changed cause I  
dont  
Really wont to lose your love but I got to be strong  
enough  
To keep from fallen off so what's going on I really want  
to  
Tell you

All I want all I need is to show  
You all I got just you and me oh baby do you  
See I got a feel for you and what you mean to me ?  
I wont lie to you baby,baby got it going on  
I can't let go

What will it take for me to show that I want to be  
All that you'll ever need so baby just believe in me  
cause  
Im given up without a fight girl I really wont to make it  
Right so tell me what to do and I'll (and I'll do it for you)

All I want all I need is to show  
You all I got just you and me oh baby do you  
See I got a feel for you and what you mean to me ?  
I wont lie to you baby,baby got it going on  
I can't let go
