Don Juan was hooked on romance
Casanova couldn't keep it in his pants
So tell me baby, what is it with you
Do you think you're just too good to be true?
I got my eye on you, I see the things you do
You're just too good to be true

[Chorus]
It's in the way you walk
It's in the way you talk
You're just too good 2 be true
It's in the way you move
And everything you do
You're just too good to be true
Just too good, just too good to be
Just too good to be true

I've seen you baby all over town
Picking girls up, and putting them down
You must think you're god's gift to the world
Is that what you say to all of the girls
I got my eye on you, I see the things you do
You're just too good to be true

[Chorus]
It's in the way you walk
It's in the way you talk
You're just too good 2 be true
It's in the way you move
And everything you do
You're just too good to be true
Just too good, just too good to be
Just too good to be true

You're just too good to be true
Just to good to be, just too good to be true
You're just too good to be,
Just to good to be, just too good to be true

You've been playin' with girls for too long
Now you wanna try this real woman on

Better watch out boy cause if you do
You're the one that's gonna get used
Baby, I'm wise to you because I do it too
Yeah' I'm too good to be true

It's in the way I walk
It's in the way I talk
Yeah, I'm too good to be true
It's in the way I move
And everything I do
Yeah, I'm too good to be true
Just too good, I'm just too good to be
I'm just too good to be true
Yeah, yeah

Just too good to be true.... 2 you.
[repeat]
