

Project 86 "Illuminate"

Visit "[Illuminate](#)" on MotoLyrics.com

Night falls like a vulture
On it's prey, wicked culture
Black pitch and getting darker
It's time to spark ourselves in this hour

When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones

When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones

You're laid bare, foolish mortal
Dark deeds, mass inferno
Covert crimes, closet portal
Your skeletons are burning eternal

When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones

When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones

When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones

When they hide in the shadows of night
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones

Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
Light ?em up, light ?em up in the dark
Let's ignite, we're the ones
