(Prozak)

Just relax and let it go
Let your heart beat fade away to the sounds of my
syllables
Incredible how immeasurable death is inevitable
Mind body and soul inseperable
Until the valley of the shadow of death
Your last request is the pain of health smoke it through
your last breath
Judgement day from all those things in the past
We told you life was self inflicted how long you thought
it would last?
Huh now the demon's screamin out your name
Walkin parallel the universe is in the rain
It's a shame that it's come to this listen to the snake
hiss
Try my friend but you can't run from this
Heaven or hell's flames or purgatory
You're at the crossroads now what's your story
Nevermind man that's none of my business
This is between you and death with life as your witness

(Prozak)

So what becomes of what becomes us
Witness the dark shadows walk amongst us while the
darkness still corrupts us
Pain and anguish and despair
The flames of hell will flicker in the eyes of the demon
as he takes you there
Torture's like the rain through the tunnel
The ground crunches with bones as blood drips in
puddles
It's kind of subtle how death embalms you
And cardiac arrest will calm you as the cemetary calls
for you
Back on earth your body's laid upon this metal table
The spirit watches from above time to end the fable
Embalming fluid is your life's blood
A box made from wood you would cry if you could
But you can't now stiff with rigamortis aint no comin
back now

Time stopped to put you back down
Another journey through the darkness of the shadows
Another body on the pile prepare for battle
