You say, "Make me into something, give me a body"
And you say, "Let me out the bottle, make me into
someone
You can give me life and I'll trade the potion you
embody with
Trips down the well and a swing from a necktie
remedy, necktie remedy"

You can give me life
You can give me life

Let me in
Let me in
You'll raise your drinks up high
You'll raise your drinks up high

You say, "The sugar cube mixture saves the day"
And you say, "The green cloudy water, it takes you
away"
But when dawn floods in with the day, the journey I
imagined
It brought me here and I swing from a necktie remedy,
necktie remedy

Let me take my life
Let me take my life

Let me in, it's cold in this abyss
Let me in, 'cause it's cold
You'll raise your drinks up high and swallow to forget
You'll raise your drinks up high and swallow to forget

Let me in
Let me in

You'll be vacant
Repossessed
For those moments
That you occupy me

Now let's make me something in and of myself
And become the cataclysmic reality

So far beyond the symptom
I limitless when you empower me

Because habit takes root in decision
And you can bet that I can wait if you can
For the moment when you need a little pick me up
A little bump, a little boost, a little helping hand

Let me take my life

Let me in, it's cold in this abyss
Let me in, 'cause it's cold
You'll raise your drinks up high and swallow to forget
You'll raise your drinks up high and swallow to forget
You'll raise your drinks up high
