

## Project 86 "Solace"

Visit "[Solace](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We have waited for so long  
To occur this day  
There are those who fly away to a distant place  
But I think I'll stay  
And I wouldn't have it any other way  
In this solace I see  
A light piercing the darkness  
Coming on the winds  
Of imagery  
When all I know is crumbling  
I am becoming something more than humanity could  
ever allow me to be  
I remember a day when  
My dreams of escape  
Seemed so far away

Let's go back in time, you and I  
To my  
Initiation to your false empire  
You greased, you aimed  
And then you spit  
While I  
Once again pushed away my conscience

Yet always, it seems  
I cannot fathom the plateau  
Without first the pit

Against the gods there can be no pleading  
Because every thought reaps an action  
And for you, my former captor  
All the earthly wisdom and wealth  
Cannot erase your susceptibility  
To brutal mortality  
And the funny thing about justice  
Is that it always comes when you least expect it  
So friends it won't be long

Seems I stole your smile, right from wrong

So forever now we'll find  
Our peace inside this

We'll find our solace in your silence  
And though I once desired your twisted sense of fame  
I know, I know that in myself I'm nothing

Nothing  
Nothing  
Nothing but the words of the "meaningless"

You have given me all I'll ever need  
The nerve, the greed, the lust, the lust, the lust, the lust  
for justice  
And now I will never rest  
Until the meaningless become your silence

.And you're

Over  
Over  
Over  
Out! [4x]

Now I mean to thank you once again, with this  
My, my, my goodbye kiss  
You broke my heart  
But something tells me that I won't, that I won't, and I  
won't miss it  
And on this very day  
And on this very hill  
While the heavens are hushed  
In anticipation, beckoning  
We'll have ourselves a reckoning  
And all of the oppressed will greet you

And you're

Over  
Over  
Over  
Out!

Over  
Over  
Over
