My back so full of scrapes
With the miles I've walked of waste
Fade and fall away against
Numb my hunger to taste

What's the basis for change
Excuses to feed my ego's rage
Cling to my comfort to clench
Content with my sadistic wrench

Find every reason not to kill
The half way beast that steals my only peace
And don't expect it to rest till it's home
Is a naturalistic nest

My back so full of scrapes
(With another wound)
And the miles I've walked of waste
(With another scar)
Fade and fall away against
(With another scratch)
Numb my hunger to taste

But there is no coincidence
And there is no compromise

Rise

Close my grip on the floodgates
And lean on the back of the covenant
Sealed in dreams
Anticipate the backlash

Uncountable grins fade to screams
Doubts an ocean away on a sea
That my last mistake drowned unwillingly
And I don't have the trust to float inside
The waves that seek to spill me

Rise

Unrealistic ideals

Promises I can't keep
I don't have those luxuries
And I don't have the time you do to sleep

And now it starts
And now it begins
I've waited too long for this
For your fear to interfere again

So now my vision's secured
