Take hold your fate in your hands  
Your payment, in time, will demand  
With fruit that's forbidden, we eat then we die  
and we can't survive

When evil rears its head  
It's life and death  
Like David sowed his seed  
and his family bled

You tried to tempt your fate  
Turns out it's your mistake  
You took what wasn't yours to take now  
Didn't you?  
Didn't you?

Consequence comes likes a thief  
So quick that it defies belief  
Beware the curse it will pass to your seed  
With dirty deeds

When evil rears its head  
It's life and death  
Like David sowed his seed  
and his family bled

You tried to tempt your fate  
Turns out it's your mistake  
You took what wasn't yours to take now  
Didn't you?  
Didn't you?

You tried to tempt your fate  
Turns out it's your mistake  
You took what wasn't yours to take now  
Didn't you?  
Didn't you?  
Didn't you?  
Didn't you?

You only have one chance

Don't take it light  
You only have one chance  
So get it right

So get it right  
Don't take it light  
So get it right  
Don't take it light

You tried to tempt your fate  
Turns out it's your mistake  
You took what wasn't yours to take now  
Didn't you?  
Didn't you?

You tried to tempt your fate  
Turns out it's your mistake  
You took what wasn't yours to take now  
Didn't you?  
Didn't you?

Didn't you?  
Didn't you?
