

Every Day Life

"Dis"

Visit "[Dis](#)" on MotoLyrics.com

The truth is not hard see all things have come undone
life gives you tragedy you have nowhere to run
freedom comes through the hurt pain our key from
there we fly a fragrance from the sacrifice burnt alive
you wander prepared to die

Life styles in which you lead prove to me there is no
need life is precious you treat it as this another facade
summed summed up as dis

The flow of things you do deny main stream holds no
hope friends once true now they lie outcast so you can
cope hope is dead there's no reprieve downward you
throw your love self prime concern to please when
provoked you only shove

Life styles in which you lead prove to me there is no
need life is precious you treat it as this another facade
summed as dis

All things are not Despair happiness has it's place act
as though you don't care still the trouble fills your face
life gives you all the best but you must want to be filled
become content with your unrest still the blood towards
you will spill

Lifestyles in which you lead prove to me there is no
need life is precious you treat it as this another facade
summed as dis
