

Everybody Loves Irene

"memento mori"

Visit "[memento mori](#)" on MotoLyrics.com

What can you do if life turns into blue?
There's nothing you can do
Oh yes, it's true

You just sit along with alcohol
Bugs in the head flew like waterfall
Sleep along under the night birds' song
Dream and dream but everything just come and go

I dont care the sunshine anymore
I just try to close the door
I dont need the sun to shine anymore
Push my self to ignore

What can you do if your life gets blue?
There's nothing you can do
Oh no, what can you do?

Scream aloud in the crowd
You know what I thought
Oh God take me out

Getting high in the bed
Smoking last cigarettes
Put the gun to the head
