Thursday half past two  
A table for two without you  
The sun will always find nothing new

Thursday half past three  
Feel free on the matinee  
Turn on the TV and can't feel my knee

And I say hey be in love be alive  
And when there's no hope tears won't help to survive

Thursday half past four  
1 2 3 and sore

Close my eyes and I can't wake anymore

Oh yes everything is perfect  
Oh no nothing's imperfect

And I say hey be in love be alive  
And when there's no hope tears won't help to survive

Thursday half past six  
The air is thick and I feel sick  
With all the dreams on Sugar stick
