This is your world, you will remember this day.  
Feel the repercussions of running away.

This is my war; this is my hope in all I am.  
This is my battle, my witness to my heart.  
I'll tear it out and give this all I've got.

You've weighed your options and it's time to act now.  
I won't let this go.  
I won't let this go.  
Open your eyes to a world that's real.  
She'd some light into this darkened world.

My world.  
My world, my love why do you torment me,  
To give up and give in to all you are? (To all you are)  
I like the man I am, but I despise the fool I've been.  
Can you help me out?  
I'm ready for a change, I won't back down.  
I won't back down  
I won't back down  
I won't back down

You've weighed your options and it's time to act now.  
I won't let this go.  
I won't let this go.  
Open your eyes to a world that's real.  
She'd some light into this darkened world.

This is my war; this is my hope in all I am.  
This is my battle, my witness to my heart.  
I'll tear it out and give this all I've got. (x2)
