Just relax and let it go  
Let your heart beat fade away to the sounds of my  
syllables  
Incredible how immeasurable death is inevitable  
Mind body and soul inseparable  
Until the valley of the shadow of death  
Your last request is a plea for help spoken from your  
last breath  
Judgment came from all those things in the past  
We told you life was self inflicted how long you thought  
it would last?  
Huh now the demon's screamin out your name  
Walkin parallel the universe is in the rain  
It's a shame that it's come to this listen to the snake  
hiss  
Try my friend but you can't run from this  
Heaven or hell's flames or purgatory  
You're at the crossroads now what's your story  
Never mind man that's none of my business  
That shit's between you and death with life as your  
witness

(Prozak)

So what becomes of what becomes us  
Witness the dark shadows walk amongst us while the  
darkness still corrupts us  
Pain and anguish and despair  
The flames of hell will flicker in the eyes of the demons  
as they takes you there  
Torches light the way through the tunnels  
The ground crunches with bones as blood drips in  
puddles  
It's kind of subtle how death embalms you  
And cardiac arrest will calm you as the cemetery calls  
to you  
Back on earth your body's laid up on this metal table  
Your spirit watches from above time to end the fable  
Embalming fluid is your life's blood  
A box made from wood you would cry if you could  
But you can't now stiff with rigor mortise aint no comin  
back now

Time stopped to put you back down  
Another journey through the darkness of the shadows  
Another body on the pile prepare for battle
