Cause I know what you said  
When you walked away  
And didn't stay  
Oh my love,  
How I wish to turn back those days  
But now you're so far away

And now I'm looking out the door  
Waiting for you to come  
As I can't wait for you no more,  
Look inside and

You'll know if I can love you again  
If you'll love me  
You know, girl I can love you again  
But if you love me  
I need you more  
I need you more  
I need you more  
Oh baby I need you more  
I need you more  
I need you more  
I need you more  
Oh baby I need you more

There's a start, a better life with you a part  
I can't do that my heart  
It could be forever in love you and me,  
Come it's so easily

And now I am looking out the door  
Waiting for you to come  
As I can't wait for you no more  
Look inside and

You'll know if I can love you again  
If you'll love me  
You know, girl I can love you again  
But if you love me  
I need you more  
I need you more

I need you more  
Oh baby I need you more  
I need you more  
I need you more  
I need you more  
Oh baby I need you more

That's why  
That's why  
That's why

You'll know if I can love you again  
If you'll love me  
You know, girl I can love you again  
But if you love me  
I love you more  
I love you more  
I love you more  
Oh baby I need you more  
I love you more  
I love you more  
I love you more  
Oh baby I need you more  
Oh baby I need you more
