These big time Hot Boy\$, these 3-6 boys  
Wit the self made millionaire Cash Money boys

You got a click so what nigga my click thicker

A bunch of real niggas that'll burn ya  
With no waitin' catch ya slippin' then jam ya up  
Slangin' weight ain't no thang for me  
Play by the rules or shit I'll kill yo' family

That's what I do  
Bust ya chest wide open  
And split ya fade nigga  
And them all frozen

Moves from the 'K nigga  
Turk don't play when it's time to get serious  
Think, I'm a hoe  
Keep it that way and stay curious

Niggas be shoutin' one love but wearin' black gloves  
Some niggas 26 and 28 still live in they mom house  
askin' for play  
Them niggas shouldn't be respected, they fake  
Instead of hittin' blocks with glocks and touchin' niggas  
money spot

And breakin' bread with the woman who put 'em in that  
spot  
These niggas wanna trick they hoes  
And play with they nose  
Instead of totin' fo' fo's and movin' fuckin' kilos

Nigga, I done bought more cars  
Than niggas done bought pussy hoes  
And bought more rims than niggas  
Done fucked they main hoe in they assholes

3-6 told me to roll and unload  
But nigga fuck that  
I'm tryin' to stack and mack  
And that deal with Universal shoulda showed that

But Uptown is where it's at

I'm representin' Northern Memphis to the fuckin' fullest  
We ain't the kind to tote a gun when there ain't no  
bullets  
And when that drama starts the strap we expect to pull  
it  
You see a nigga holdin' gauge and you wish he would  
have

Rolled by yo' mama house and put her in a coma  
'Cuz niggas gone on that Hennessey and Marijuana  
And now we back up in the hood on a burner phone-a  
In that game slangin' came to you blood donors  
It's on, coward

They call me quick draw 2 pistols Lil' Wayne  
Champagne took my brain, I don't think I just aim  
Drop tops on a Z-3  
Start shootin' like 3 burners

How come them try me  
Never know me block burner  
Better watch for lil' shorty in black  
Nigga get back

'Bout to make my glock 40 click clack  
Brrr kill it  
It's yo Life

Playin' with the realest  
Pop fire like a skillet  
Now nigga what the dilly  
Highly influenced on Cristal

I'm warnin' you to clear the set because it gets wild  
I be disguised as a mailman with a pistol  
Then deliver him 50 shots  
And take his child

Punk bitch I dare ya  
I double dare ya step against this pot belly  
Bitches they try to step to the ruler but they ain't ready  
Weak ass them cowards try to make moves but I knock  
'em out

2nd ones step ya'll need more help  
2 barrels in his mouth  
Face it when this shits fucked up you gotta deal with it  
This is my game, live with it or get killed with it

These are my dice  
This is my board I let you roll off  
And how you gon' have ice  
When I cut your fuckin' water off

We be on some twanky, twankies  
Playa hatas get found stanky, stanky  
Trickin' fat blunts of that danky, danky

I'm strapped with a glock 9, he ain't takin' mine  
We in our prime puttin' in work players never rush it  
Full of gin, fucking hoes, like I'm mad Russian

A discussion amongst men means a power move  
Is about to be made for a come-up fool  
Slang that iron when you get in my business
