"Crash"

This morning
You got up early
I was still sleeping
I was exhausted
I was having dreams
That had blood in them
That had weapons in them
Wet dreams
Wet dreams
I woke up crying
You were gone
Last night you kissed me
I pushed you away
My push made you want
To
Kiss me again - no
I pushed you away
You kissed me and kissed
Me
Get off me
Get off me
Last night I got up
Didn't wash
I was wet with acid
Sweat
Sweat that doesn't
Smell like sex
Smells like anger and fear
Smells like anger and fear
My dear!
Smells like anger and fear
My dear!
