"Lead And Feather"

Whenever I can - I don't dare

Whenever I must - I'm aware
Every love - just gives me pain
Whatever I see - Is the same

Where is the tunnel - Where is the light

Where is the love - That they described

I feel so empty - Where is the path

My soul is burning - In the dark

I see no sense - In going in on

It doesn't matter - Which side won
The pain grows stronger - With every word I say
So go away now - And let me stay

You are the center - You are the love

You are the meaning - Coming from above

You are the tunnel - You are the light

But no-one told you - You have the might
You are the answer - Glowing in time

You've been the first thought - When will you shine

The love surrounds you - Even if you burn

Your heart will tell you - It's time to turn
