This \*\*\* got popped, this \*\*\* got drowned  
This \*\*\* got found on the other side of town  
With a whole lotta bullets in his head, in his head  
With a whole lotta bullets in his head, in his head

This \*\*\* got popped, this \*\*\* got drowned  
This \*\*\* got found on the other side of town  
With a whole lotta bullets in his head, in his head  
With a whole lotta bullets in his head, in his head

It was New Year's Eve, I was kickin' it with gangsta  
Fred outta North Memphis on another caper  
Fresh like the D mayne look like we on ki's  
Eyes like a Chinese, we was on some trees

P's and our Q's, what us true's, \*\*\* be's on  
Really from the hood, know a jackin' can happen  
Ain't no surprise when them \*\*\* get to poppin' off  
Ain't no surprise when them choppers get to choppin'  
off

Could be alive once the drama get to hoppin' off  
Whip ya up like cream then mayne, blow ya toppin' off  
Made a left on Chelsea Ave, pulled in to Russell sto'  
See my \*\*\* Boo, conin', on his hustle flow

This \*\*\* got popped, this \*\*\* got drowned  
This \*\*\* got found on the other side of town  
With a whole lotta bullets in his head, in his head  
With a whole lotta bullets in his head, in his head

This \*\*\* got popped, this \*\*\* got drowned  
This \*\*\* got found on the other side of town  
With a whole lotta bullets in his head, in his head  
With a whole lotta bullets in his head, in his head

My \*\*\* said he got robbed, young skulls pulled a jack  
Say he had twelve \*\*\* and was low on his cash  
Had a case pendin', so that took, all his stash  
Said he might have to gon' pull out the gun and mask

Ask where I get the tools? Eyes lookin' kinda shady

Smelled liquor on his breath, then he upped a \*\*\*  
Tone to my dome life flashin', 'cross my eyeballs  
Grabbed for the gun right before he let a round off

Fred dropped the beer of the \*\*\* comin' out the sto'  
Shot him in the side, then the fool let the \*\*\* go  
Leakin' like a faucet he done ran off in the night  
For this \*\*\* death, I was fiendin' like a hype

This \*\*\* got popped, this \*\*\* got drowned  
This \*\*\* got found on the other side of town  
With a whole lotta bullets in his head, in his head  
With a whole lotta bullets in his head, in his head

This \*\*\* got popped, this \*\*\* got drowned  
This \*\*\* got found on the other side of town  
With a whole lotta bullets in his head, in his head  
With a whole lotta bullets in his head, in his head

It's been seven days, we done caught up with the punk  
In the very same spot, duct taped him in the trunk  
In a Grand Marquis, stolen rental car  
Headed 55-South, then we exit on Lamar

Sucker tried to resist, wanna squash it, \*\*\* please  
Me and Fred threw him in the trunk, bullets in his knees  
I could squeeze mercy in but it's principalities  
Maybe mama can forgive but you did this to me

Mayne these streets it can get real wicked in the south  
\*\*\* tried to take me out, now my \*\*\* in his mouth  
Blew the back out his skull, where it dropped, where he  
lay  
South Memphis police found his body very next day
