"Precious New World"

Earth is given to us as a pledge
Our task is to preserve her
But we drill into her
Like a tapeworm into a dog
The poisoning of our planet
Grows larger from day to day
Death wins without a battle

The earth which feeds us is ruined
The ocean becomes a dust heap
The air we breathe is filthy

Humanity opens the nuclear can
And lives of lended time
Procreation and birth
Work and sleep
In a terminate state
In a precious new world
[2x]

In a precious new world
Surrounded by dying nature

The world
The world turns upside down
[2x]

We have created her in a shape
In which the eagles die
And the seaweed thrives
We are on collision course
We are on collision course

Humanity opens the nuclear can
And lives of lended time
Procreation and birth
Work and sleep
In a terminate state
In a precious new world
[2x]

In a precious new world
In a precious new world

Surrounded by dying nature
The world turns upside down

We have created her in a shape
In which the eagles die
And the seaweed thrives
We are on collision course
We are on collision course
