Back from my walk on the clouds  
Grey lights settle down with the sunset  
Fill the city's skyline with dust  
Just remember yesterday  
When sparkling colours lit our lives  
What has been done?  
And where have all the angels gone?

City of light in a golden land  
Somewhere beyond time and space  
Allowed for angels only  
Protected in a secret place  
Far away from the human race  
You cannot get in touch with them  
Searching for a sign  
Above and beyond

In the city of light  
Where angels play  
In the city of light  
Allowed for angels only
