"We Are Unified Insane"

Visit "[We Are Unified Insane](#)" on MotoLyrics.com

We spill our guts and drain our souls
a broken world refined in sin
we hit and bash to break our bones
brick by brick we crack them stones
as darkness lays it's shade
infected wounds fight
we all unite from pain
we are unified insane
intoxicated last in line
losers stand to gain no more
manipulated guided blind
inch by inch abused by all

Hang me in sacred gardens
leave my corpse to show
kill me in sacred gardens
breath my empty whole
spill me in sacred gardens
leave my guts to float
end me in sacred gardens
erase all trace from me
