Do I fuel my hunger deprive my dreams Live my lonely
worn out seam Stitches weary and the scars they leave
I'm the only one deceived Chorus: Please stand clear
from the blast As I purge demons from my past Don't
aspire to relieve Do your worst and punish me So I run
fast I can Die tomorrow half a man Finish the story she
said to me I can't sit here and watch you bleed Repeat
Chorus Do I fuel my hunger deprive my dreams live my
lonely worn out seam Stitches weary and the scars they
leave I'm the only one deceived Repeat Chorus
