Have you ever ask why
Some turns me with nervless?
I can tell you
Because they are answer
They're answer

Never supposed
Every vegetable is missing the can
They're falls awakening
Beware of demonic puppets
Demonic puppets

Beware of demonic puppets
Demonic puppets

They stick needles in your eyes
And if you go into the cellar
They crawl beside you
They crawl beside you

Beware of demonic puppets
Demonic puppets
[4x]

Nobody knows when it began
First they sit in another place
They just good
When you don't look at them
When you don't look at them
Beware of demonic puppets
Demonic puppets
Demonic puppets

They just good
When you don't look at them
