How long will we still be blended by greed and hate?
Have we forgotten how to walk towards each other?
Now the time has come to meet in love

Love is precondition for harmony charity and peace

Each one depends on it
And is useful for the one who practices it

His community
His homeland
And the whole world
[2x]

But when we lose the sense for love
Will enemies keep on existing between
Human beings and other creatures?
Other creatures?

If the happiness of this mankind is of importance
Love is the only solution
Far away
Love is the only solution
Far away
From agony and pain

First ask yourself what is acceptable for mankind
Then avoid the contrary
[2x]

Each one depends on it
And is useful for the one who practices it
His community
His homeland
And the whole world
For his homeland
