Tangled in the webs that she weaves  
Dangling in disbelief, trapped I can't breathe  
She's the one that left me  
Stranded feelin' empty  
Now I'm all alone reading the letters that she sent me

Tired of playing games  
Tired of being in last place  
I move to fast pace, who are you to judge  
If only you can love the way you hate me, every things  
so shaky  
Broken, lost, crushed, all the above  
Too many mistakes, too many bad breaks and bad luck  
Too many lies and closed eyes, now I'm stuck in a bad  
rut  
You said you'd be committed from the beginning 'till  
end  
I can't believe you said we're better off just being  
friends

I can't believe this  
You can just walk away  
I can't believe this  
Each and every other day  
I can't believe this  
Now my mind is blown  
I can't believe  
That I am all alone

Chorus  
EYES, into a place that I take you  
WIDE, you see I just can't replace you  
SHUT, and now my heart it breaks in two  
Follow, follow, Eyes Wide Shut

You thought you left me empty handed, stranded and  
broken hearted  
Mistreated and cheated so take it back to where we  
started  
To the first time we met and the first time we kissed  
Together forever, well what have I missed

If only you can see just how I feel and what you mean to me  
I never thought that you could walk away so easily  
You said you needed space, now you're out hanging with him  
You said we can't be lovers so I know we can't be friends

I can't believe this  
You can just walk away  
I can't believe this  
Each and every other day  
I can't believe this  
Now my mind is blown  
I can't believe  
That I am all alone

Chorus (2X)

Just the other day  
I looked at her, she looked at me and then she walked away  
'Cause I never really understood why  
She could pass me by without giving us another try  
So tell me what you're looking for  
'Cause I don't know no more  
All I know is that I feel just like my hearts been torn  
And I thought I was more than just a friend  
And now you're leaving me in the very end  
And my vision is a blur  
All I really know is that I loved her, I loved her

I can't believe this  
You can just walk away  
I can't believe this  
Each and every other day  
I can't believe this  
Now my mind is blown  
I can't believe  
That I am all alone

Chorus (2X)
