

Project Pitchfork "Green World"

Visit "[Green World](#)" on MotoLyrics.com

green world
a breeze let me fly higher and higher
soundless drifting over the green

I'm floating in
waterfalls
purity all living in
cool crystal water
peace freedom
wet heat

green light
on the ground
live is filling everything
never silence
lovely sounds from above

trees
live-giving gods
bowing to live
vibrations in the air
I'm the forest never fading
guarding everything
flying jewels
