defendant - judge - cell - guardian - key
all in one person

feel love
and fall into the sky
you'll be caught - dive into your soul

defendant - judge - cell - guardian - key
all in one person
but you locked yourself again
like every time - in every life
remember yourself
I'm just passing by to tell
you might be chained

heaven is waiting
time has been given
defendant - all is you
judge - you can be part of all again
cell - guardian - key
all in one person
but you locked yourself again
like every time - in every life
remember yourself
I'm just passing by to tell
you might be chained

a seeker surrounded by darkness
is still searching
