claws of pain
and parched rivers
minds like wax
the foundation quivers
fragments of being
the monster is breathing
it has time
slow and calm
all the time it wants
karma monster
is waiting in the dark
malfunction
it guards you like a shark
it's made for eternity
it is reliable
it doesn't matter
that there is no control
movements in slow motion
loneliness is ruling
the order is codename
live command
karma monster
is waiting in the dark
malfunction
it guards you like a shark
