We hate nature we love our wars
We believe in our religion
We are to dull to change our ways
They're searching for their inner truth
I think i have to buy another car
Killing natures killing animals
Don't disturb we love our chemicals
We're growing and moving
We're absorbing everything
There is arising a new point of view
But we don't pay attention
There is still so much to do
We believing in our religion
Hate nature love wars
They're searching for their inner truth
We are growing and moving
We're absorbing everything
There is arising a new point of view
But we don't pay attention
There is still so much to do
We have still so much to kill!
We're growing and moving
We're absorbing everything
There's arising a point of view
But we don't pay attention
No we don't pay attention
No no we just don't realize
We don't realize
We won't realize
Don't become like them
