why do you really care
why do you really feel
why do you so
and why are you
why do you see
why do you speak
why do you hear
and why are you
this is the church of your soul
not the music - not the rhythm
not the words - just you
not the music - not the rhythm
not the words - just you
you are the priest of this church
not the body - not the brain
not the blood - just you
not the body - not the brain
not the blood - just you
your life is like a book - start reading it
someone else would love to fill your pages with his
words
