oh woman " it's such a shame  
you are giving life " like earth  
that's why we treat you the same  
oh woman you're not to blame  
like earth " you are giving us love  
that's why we treat you the same

oh girl " don't listen to men  
when they tell you " you shouldn't  
but they tell what you can  
girl " you are the missing part  
of this society which is falling apart

oh human " when will you be  
like the deeper meaning of reality  
oh human " don't you see  
you are ignoring one part of humanity  
men " what do we do  
when we tell a direction  
then it's true  
men " what will it be  
if we would change  
the earth to normality

what is the difference in here  
it's the direction " from which comes the fear  
and " why don't they change the way  
because one part is missing  
and earth seems here to stay
