Is this what we have to look forward to?
Cause I could think of things I'd much rather do
Than sit around wondering what am I looking for?
And why are you still here with me?
With me?

It doesn't have to be like this
It doesn't have to be anything
But we both know we're much better off
So let's get on the road
We know where to go
It's up to you to take us there
I'm sure you'll find it to our like
Take my word for it and you'll see

Why should I feel like I'm to blame?
Cause that's not my business anyway
But will you take away your pain?
Take it away from me

So is this why?
Is this why you make me feel this inside?

Is this as good as it can get?
And when will you go out on a limb?
Cause I know we're both better off
So, let's get on the road
Who cares where you go

Far away is enough for me
I'm sure we'll find it to my like
Just take my word for it and you'll see...

Why should I feel like I'm to blame?
That's not my business anyway
When will you take what's yours away?
Take it away from me

Why don't you feel the slight of shame?
Cause that's not my business anyway
When will you take what's yours away?

Take it away from me

So is this what we have to look forward to?
Cause I can still think of things I'd much rather do
I wish you could say the same
But we know better

I think that your whisper... it's still too loud for me
Could be that you miss me more than you'd
Miss me
Come down
I know that you're still part of me
Wait for me
I know
Wait for me
I know that you're still part of me
Wait for me
