Filling our minds with your lies  
Do you really care if someone dies?  
Suffocation, welcome to our realty  
Strangulation, the meaning of our justice  
All you want to be the leader  
To rule and decide the rules  
But your promises just disappears  
As they never existed  
How can you live this false life  
You're living on the edge of my knife  
Provoke your inner-thoughts  
With your selfish greed  
Shattered dreams, of reality  
Seeking your own visions  
To create your paradise  
Of power and enslavement  
To change our society  
Seems to be impossible  
Lntentional torment  
Maggots crawling from your throats  
Filled with reek of excrement  
And you suffocate yourself

With your endless lies  
How can you still preach  
And spread your empty words  
Brainwashed political victims  
Realize their fake  
You all have the same message  
Vote for me and I'll make you satisfied  
But you can't fool everyone  
Some of us can still thank  
Conspiracy against us  
Revolution in time  
Earth and water  
Air and fire  
The Earth is ours  
And you are just a tomb, in the society  
How can you live this false life  
You're living on the edge of my knife  
Provoke your inner-thoughts

With your selfish greed  
Shattered dreams, of reality  
Seeking your own visions  
To create your paradise  
Of power and enslavement
