Exildah:

Today is another day that comes...

That comes X2,

I think really just wan express my words for you

Eustace,

I can't tell you while looking at you cos I might feel shy  
and I can't send you a text cos there must/ there might  
be something that can do to delete it,

But uhm! uhm! all am telling you right now is I love you  
and I'll always love you and please just learn to trust  
me, don't get what people say,

Atleast if/ if you get what people tell you try to ask me  
and I know what I say and what I'll do about it,

Please don't over react without you knowin the truth,  
Don't get upset but ask me, I know this people are just  
jealous and again what surprises me is "the same  
people that comes to ask me out are the people that  
come to you telling you bad rays about me, that's being  
foolish"

Is where there is love, there is perfect trust

Where there is love, there is perfect joy

There is an ending beauty in living so/ anyway but all I  
can say is

I love the romance

I love the kissing

I love the passion

I love the talking

I love the tenderness

I love the carings

I love that I can't find anything not to love about you

I love loving you as much as I do, right now am missing  
you, I miss been with you

I want you to know how much I miss while we're apart

My life

My world feel incomplete without you,

I miss you very very very much and I miss the  
yesterday thing dash dash guess you know

And/ I was, in the first place I was happy once now am  
happier in love, in love so my happness has not end  
cos we still deariest and luckiest peace in the world  
your love is precious

And I \*\*\* with one promise sharing other various rays  
of life  
I love you so much/ I love you  
Uhm, my man you're to me  
All that a man should be I dedicate my life to you  
always, and love like yours is real  
Your love is real, really I mean it

My heart promises to adoring your life with struggles  
like that of the flash flower wit dat,,  
It promises to hold you within forever, for it has you  
more than ever knew

Ok! I wants to love you further more and explore the  
wonderful person in you  
I promise to appreciate your ideas  
To learn a little rays and tap to your heart look on life  
has time passes by with beautiful days  
You're for...  
You're my forever one

I love the times when we're together  
I love you b'cos you respect my individuality  
I love b'cos with you in it my life is full of melody by  
love me you've shown me the beauty of love

Awe me am missing you

I promise to love you and keep you happy till eternaty  
This comes with sweet hopes and a heart full of love to  
say I treasure you with all my heart and look forward to  
make our dreams come true

I love you  
I love you  
Love am not feelin oky, am so sick  
I don't even know what to do so,,,  
And am missing you so much, uhh  
I miss you  
I miss you  
I miss/ Oh I Miss the touching  
Maybe if I see you I might get well, I don't know what I'll  
do but,  
I think am not going to see today cos yesternight was a  
very bad day/ was a very bad night ever  
Mum shoutin at me I felt shy  
I didn't even know what to do  
Nowander I ha/ I had to switch of my phone thinkin  
mum will get my phone or my sim

But again this morning it just being a very bad day  
I went for tutions and felt sick  
I wanted to knock off early but/ I just had to attend my  
self and wait until we knocked off around 10 [hrs]  
And then I came home, started think about you and  
thought I should tell you what I feel about you  
Or what I love about you  
Or what, or uhw  
I love you, but seriously get it from me  
I love you and promise to love you always  
You're my future husband that I know  
God bless.

Eustace:

This is the day that come  
I never thought that one day will change the rest of my  
life  
As you wish you never met me so I wish you never  
forget me  
Leavin without say goodbye  
By lovin me you've shown me the beauty of love  
Miss your pretty smile  
Miss all the times we spent together and above all I  
miss you  
I love you and  
I'll always/ always love you  
I'll never forget a diva like you BA MAMBWE  
Just pay no mind to what people say, and that's a  
caution  
I love you and how always love you  
All I know is my future will be better than my past  
I love you.
