I don't know how you found your way here,  
But you won't be leaving in one piece.  
How many times must I reiterate all of your  
inconsistencies?  
You are fucking hopeless.  
If only your mind was open as wide as your fucking  
legs maybe your life would start to make sense.  
I have washed my hands of this.

Don't walk, run.  
You better run faster than that.  
You better run as fast as you can.

Let me hear you scream.  
I want you to beg for mercy.  
You will be made an example off.  
I only hope the worst for you.

If your lungs were to collapse this very second no one  
would notice you were gone.  
Every person that you let down, they can all hear you  
scream now and none of them will do a single thing to  
save you.  
If the air in your chest were to cease and you were to  
stop breathing, I think I could sleep at night, I could  
sleep at night.  
I'll give you the fame you've been begging for when  
they find your body, you'll be on the news front page.

You have gotten in over your head.  
The waves swallow you whole.  
You will be forgotten.  
This is only the beginning.

I warned you, I told you to start running but you didn't  
listen so now you will pay the price
