Expanding Man--Download

Written by Peter Armata, David Wanamaker, Aaron Lippert, Christopher Hancock and William Guerra

Download, downsize, downplay the inbred lies
My love, my right, cut down to sound bites
Inform, invade the safe place the I've made
Dig deep, deep holes we're losing our souls

And I'll keep you here beside my throne, I will, I will
To find out what I've always known, I will, I will, I will

Uplink, uptown, upgrade while they drown
Your walls surround the technology crown
Who knows, who cares, never mind the blank stares
Dig deep, deep holes we're losing our souls

And I'll keep you here beside my throne, I will, I will
To find out what I've always known, I will, I will
All while I sit here on my own, I will, I will
I will, I will, I will
