

Exploding Boy "Intervention"

Visit "[Intervention](#)" on MotoLyrics.com

It's your body.
It's not your soul.
It's your fail rising.
On your own.
It's your lack of passion.
Into the void.
Your an intervention.
So I...
Watch you fail, watch you fall, watch you faint.
Want you stop and kick it in.
I'm going in and we dance together.
Watch you walk, watch you talk, watch your thing.
Want you stop and kick it in.
I'm going in and we dance together.
Like your saddest.
A nevermore.
Like your eyes are hiding.
On the floor.
It's your lack of fashion.
Into the void.
So I...
Watch you fail, watch you fall, watch you faint.
Want you stop and kick it in.
I'm going in and we dance together.
Watch you walk, watch you talk, watch your thing.
Want you stop and kick it in.
I'm going in and we dance together.
Come on and dance now.
Come on and dance with me now.
Come on and dance now.
Come on make sense to me now.
And I'll never let you down.
I'll never let you down.
