Tell all your friends
Make believe all round
Did you come down?
Ill bet he finds me out
He said, Leave your friends
Like a leaf on the ground
I was your friend
There's still leaves all around
Cause I'll be there all night
Staring at them outside
You can cross that desert outside
(Its the easy way out)
I shouldve known
I thought, How could I go?
But you're fine; it's solved
Police heard you go
They'll find out you know it's different
Its your friends
So now howd you sell that spirited dream outside?
You can cross that desert outside
Ill be waiting
Out there inside
You can cross that desert outside
Ill be waving
Out there inside inside
Out there inside out there inside outthey're inside
Can you hear?
