It's been bugging me
I vaguely seem to recognise your face
It's been haunting me
I can't quite recollect the time or place

You seem familiar
You seem so close
I wonder on a lonely night like this
Who loves who the most
Who loves who the most
Who loves who the most

It's just cutting me
Was it you who told me that you loved me a week ago?
'Cause it's tearing me in two, tearing me in two
I told her it was you who called my name

You seem familiar
Oh you seem so close
I wonder on a lonely night like this
Who loves who the most
Who loves who the most
Who loves who the most

Who loves who the most
Who loves who the most

Oh you seem familiar
You seem so close
I wonder on a lonely night like this
Who loves who the most
Who loves who the most
Who loves who the most

Who loves who the most
Who loves who the most
Who loves who the most
Who loves who the most

Who loves, who loves who the most
Who loves, who loves who the most

Who loves, who loves who the most
Who loves, who loves who the most

You seem familiar
You seem so close
Who loves who the most

Who loves who the most
Who loves who the most
Who loves who the most
Who loves who the most
Who loves who the most
Who loves who the most
