"All Frosting"

Let's meet out in san bernadino
Let's get a case of polish vodka
Let's bring out the big guns
The modified israeli ones

Let's go back to where we let it all go
Let's quit scavenging for bones down in the snow
Let's follow the freeway from here
Let's disappear

Let's get our stuff back from the pawnshop

Let's put a bedroom in the attic
Let's stay up real late and see if we don't suffocate

Let's practice our smiles 'til we're both freezing cold
Let's dig up the graveyard 'til we find ourselves some
Gold
I will tell you when the coast has come clear
Let's disappear
