1st: I shut my eyes to find myself into obscurity
I scream against my private god
Respect my friend but he' s not a friend of purity
The brawler style acts like a dog

Pre-chorus: and now I want you son by my side
I' ll give you a lesson in protection
Oh baby please please don' t burn me
Cause I'm not pro -pain

2nd: creeping through my new brotherhood
True friends are few
Love for my family and my crew

Pre-chorus

Chorus: free is what I am on heart
Free is what I am for sure
The brawler' s style goes on

Special: why you' re the one I hate inside
The sickest one exist to break my balls
You and your life is just a farce that falls
So heal my scars and let me live alone

3rd: respect my friends but his not a friend of purity
The brawler style acts like a dog
Creeping through my new brotherhood
True friends are few
Love for my family and my crew

And I' ll trick you, and I' ll trick you once again,
And I' ll trick you once again
