How fast can you have your bags packed?
I'm ready to blow this town

Cause this feeling is getting too hard to explain
When it seems like months that you and I have been
away
From each other's arms it's only been days
And I, I count down seconds till these play rites will
save me
From a feeling I feel that has certainly made me
Oh, you know it's certainly made me
Too upset to describe, how when I close my eyes
You're sitting right beside me on this bed here tonight
You know I'd have to say to you

How fast can you have your bags packed?
I'm ready to blow this town
Friendships are less important, I'm going to feel let
down
Cause one thing, between road signs and street lights
When I shut my eyes to the world outside
It's just another thought of you and I

I'm so mad that I never got to say goodbye
And I all can do is sit here and wonder why
You were taken from my life
And as I count down seconds till I see you again
I've got our memories in my head
And I just can't seem to understand
(So now I'll understand)
How when i look into your eyes
I could always realize
That you and I could have been together for all times
You know I'd have to say to you

How fast can you have your bags packed?
I'm ready to blow this town
Friendships are less important , I'm going to feel let
down
Cause one thing, between road signs and street lights
When I shut my eyes to the world outside
It's just another thought of you and I

Last night I had this dream, it was the most amazing
thing
There we were sitting side by side, just like the past 12
months
And in a sea of wishful thinking, you know I pray to God
I might spend forever in this moment and never have
to wake up

How fast can you have your bags packed?
I'm ready to blow this town
Friendships are less important , I'm going to feel let
down
Cause one thing, besides road signs and street lights
When I shut my eyes to the world outside
It's just another thought of you and I

So we'll blame it on learning, It gets harder with time
But even with distance, I know true love will survive
So we'll blame it on learning, it gets harder with time
But even with distance, I know true love will survive
