Hanging around you, turned me upside down
You stole the clock when you left town
There's never any time worn
On the flower of a storm

More inside children with outdoor names
If we suffer never
We won't know if we're out of the woods
All those waters you left me

If there's more, please correct me
The city grid on the window pane

Now the phone keeps ringing
I forgot how to converse
Two weeks full of all sick days

If we suffer never
We won't know if we're out of the woods
We won't know if we are feeling good
She wakes up when I come in to sleep

We park our cars on one spot on the street
I wanted to turn the car into a functioning heart
That we burned the house was just a start
It could be so much better, get out of the weather now

If we suffer never
We won't know if we're out of the woods
We won't know if we are feeling good

If we never suffer
Never turn the house around
Burn the car down
We won't know how
