

## **The Promise Ring "Things Just Getting Good"**

Visit "[Things Just Getting Good](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When what I came to say, is said  
And the sun sets on my summer career  
How September came for Sinatra  
Now it's winter then it is a new year

The big bright lights take Manhattan  
And I take to Berlin  
Tomorrow we all get started  
But for tonight I am turning in

When what I came to do is done  
And we all feel a holiday cheer  
I hear my swan song singing  
It is winter then it is a new year

So I follow weathers together  
And my best brother  
With things just getting good

We're a working title for a really long book  
And when you were watching my hands just shook  
But if it came too easy  
It wouldn't be worth all the time that it took  
So I follow weather, just getting good
