"Let Dem Pray"

Visit "[Let Dem Pray](#)" on MotoLyrics.com

Him, him one by any name
Eyes see love, a hotta burning flame
Inna the far distant future space
No more killing no more life fi waste

Visa, just to tease me up a while
Cause they see me as an immigrant child
Those, if they were a true believers
They will never build walls
Visa, just to tease me up a while
Cause they see me as an immigrant child
Those, if they were a true believers

They will never fight

Let them pray
Let them be
Let them pray their way

Their mental abilities they hide behind their eyes
You can't see that dem foolish, you can't see if dem
wise
Their mental, it's mental
Inna the far distant future space
No more killing no more life fi waste

Let them pray
Let them be
Let them pray their way
